

## PROPERTY OFFER FROM TOWN OF HANCOCK

The Town & Village of Hancock New York currently have no recreational or public area that is suitable or safe for dogs/owners to exercise, play and socialize. Our local leaders from the Town of Hancock have generously offered us the use of about 1.5 acres of land behind their Town Hall opposite The Sunoco Gas Station and near a major interstate exit to establish a fenced in, off-leash dog park where well-behaved canine citizens can exercise in a clean, safe environment without endangering people, property or local wildlife.

The town, like us on the committee, view this park as a community project, in partnership with the Town and hopefully Delaware Opportunities. It will be designed to satisfy the needs of dog-owners and non-dog owners alike, where all residents, and families of the area can socialize and enjoy yet another special attraction here in Hancock. We also hope this park can create new business opportunities and jobs, such as dog walkers, and we feel that community based fundraising events and training programs will offset any of the costs involved with the build-out and upkeep of the area."

\*Please note we will need to finalize the active volunteer group in Hancock, *Friends of the Hancock Dog Park*, which I imagine will comprise much of this committee and our friends. We need to ensure we/they are willing to provide the time needed to manage this program and work to provide the financial resources needed via fundraisers, grants, and festivities in the community.
